

1959 VW Single Cab Transporter

Authentic Lincoln Plumbing "Radio Dispatched" work truck.

This 59 Single Cab Transporter has been sympathetically restored by owner Chris Mayring, WR's shop manager. The original period condition has been preserved and the paint is mostly original. The Lincoln Plumbing graphics, including the early WE prefix telephone number are also all original, not replicated. The brakes, steering and transaxle are all in excellent working condition. The engine has been upgraded to a 1600cc dual port 70hp version with a single Zenith carb.

Driven often and fully sorted. Reluctantly for sale to support Chris' Porsche habit.

PRICE: \$39,500
